

2018+ Dodge Smart Access Cable Installation Instructions

1. Disconnect and isolate the negative battery terminal.
2. Locate the Security Module within the vehicle. Contact Support@HPtuners.com for assistance in locating the module if you need.
3. Remove the wider plug from the Security Module and connect it to the end of the Dodge Smart Access Cable.

4. Plug the smart access cable into the now vacant port on the Security Module.
5. Reconnect negative battery terminal.
6. The Dodge Smart Access Cable is now installed. Simply plug your MPVI into the pre-existing OBDII port in the vehicle and tune away!
